

# END THE OCCUPATION OF IRAQ

## Redirect Funds to Human Needs

The Iraq occupation is one of the worst foreign policy disasters in U.S history. In polls and at the ballot box in November, the American public has expressed its desire for an end. Yet U.S. involvement deepens, due to an arrogant White House and the acquiescence and timidity of too many Democrats.

**PDA** wants all U.S. troops withdrawn promptly, and occupation funds redirected toward social needs at home and humanitarian aid to Iraqis. Toward that end, we call on the Democratic-led Congress to use its powers to 1) cut off Iraq military funding, and 2) fully investigate false White House claims justifying the invasion and ongoing occupation.

**PDA** is working closely with members of Congress, including Reps. Dennis Kucinich, Barbara Lee and Lynn Woolsey, who are preparing to challenge the expected \$100 billion supplemental Iraq war request. We have been among the main organizers behind the “End the War in Iraq Act” sponsored by Rep. James McGovern, which would terminate funding for troop deployment, while providing funds for safe withdrawal.

**CURRENTLY PDA IS WORKING** to broaden support for the new, landmark legislation: H.R. 508 -- *The Bring the Troops Home and Iraq Sovereignty Restoration Act*. Introduced by Reps. Woolsey, Lee and Maxine Waters, all PDA Advisory Board members, this is a comprehensive alternative plan: fully fund a 6-month withdrawal of US forces and military contractors; prohibit permanent military bases in Iraq; provide economic and political aid to the Iraqi people; fully fund VA Health Care for all veterans.

In broader terms, **PDA** wants an end to a militaristic foreign policy that makes our country less secure – and diverts badly needed funding from our country’s domestic needs: environmental, educational, social. Our security will be enhanced by bolstering multinational alliances and the U.N., by an evenhanded Middle East policy, and by programs that offer a helping hand, not a slugging arm, to developing nations. Such policies will help us become the most admired – not hated – nation in the world.

- PDA PRIORITIES:**
1. End the Occupation, Redirect Funding
  2. Implement Universal Health Care
  3. Assure Economic Justice
  4. Guarantee Clean, Fair, Transparent Elections
  5. Stop Global Warming
